SUMMARY

Computer Science student with solid foundation in programming and data structures. Experienced in building some practical projects using Java, AWS, and ServiceNow. Interested in solving technical problems, development & cloud tools. Looking for opportunities to work on real-world software & learning through hands-on experience.

EDUCATION

Aditya College Of Engineering And Technology - B.Tech in CSE - **CGPA: 7.97/10**

Sep 2022 - May 2026

Narayana Junior College - Andhra Pradesh Intermediate State Board - **PC: 80%**

Jun 2019 - Apr 2021

TECHINICAL SKILLS

Programming Languages : Java, HTML5, CSS3, JavaScript (ES6+).
Technologies : Amazon Web Services (AWS), ServiceNow, React.js.
Core Concepts : Operating Systems, Object-Oriented Programming (OOP).
Developer Tools : Git/GitHub, RESTful APIs, Visual Studio Code.
Database & System skills : MySQL/Oracle SQL, MongoDB, Linux.

EXPERIENCE

Java Intern

Aug 2024 - Nov 2024

Technical Hub

Surampalem

- Administered 30+ live Java mentorship sessions, guiding 300+ students through core concepts and interactive debugging, resulting in a 25% performance boost and high satisfaction scores.
- Designed five comprehensive learning modules, decreased the time spent on Core Java concepts by 25%.

PROJECTS

Nexly - AI Powered Resource Platform & Extension

Jun 2025 - Jul 2025

Technologies - React.js, Node.js, Express.js, Tailwind CSS, AWS(Lambda & DynamoDB), OpenAI, ServiceNow.

- Created an AI-powered resource platform and Chrome extension to collect and manage 1,200+ learning resources, improving study accessibility by 79% with AI Copilot, achieving 52% cost reduction and 50% faster data retrieval.
- Integrated ServiceNow (Email Configuration, Visual Admin Panel) to automate backend workflows, reducing custom UI development by 75% and operational compute costs by 55%.

Service Sphere

Jul 2024 - Aug 2024

Technologies - HTML5, CSS3, JavaScript (ES6+), AWS (EC2, S3, IAM, etc.,).

- Unified 12 professional and personal services into a single platform, reducing access time by 45% and increasing adoption by 30%, optimized traffic routing achieving 94.99% service availability.
- Architected scalable AWS infrastructure as part of a 6-member team, ensuring high availability and performance.

Inventory Management System - Java Based Application

Apr 2024 - May 2024

Technologies — Java, JDBC, Java GUI Frameworks (Swing, AWT), MySQL.

- Identified need for a real-time system to handle 50+ daily inventory requests across departments and developed a Java application with JDBC and a user-friendly GUI for seamless database operations.
- Implemented MySQL-backed CRUD functionality using Java Swing/AWT, achieving a 99% request success rate.

CERTIFICATIONS

Certified CSA & Certified CAD, ServiceNow

23rd Jan 2026

Certified System Administration (RHCSA), RedHat

20th Jun 2025

IT Specialist - Java Certification, Certiport (a Pearson VUE Business)

5th Jul 2024
